

## BUILDING CULTURE THROUGH COFFEE

Kaapittiaq means 'good coffee' in Inuinnaqtun, and that is what we produce. We source green beans from Indigenous farmers in Peru and transform them into the Arctic's finest brew.

We are an Inuit owned and operated business dedicated to supporting the survival and revival of our culture. Each year, 75% of Kaapittiaq's profits are used to create programs promoting Inuit culture, language and knowledge.

## CONTACT US

Kaapittiaq is available as whole bean or ground coffee in a variety of bag sizes and single-serve cups. We supply individual orders, in addition to selling wholesale to restaurants, cafes, retail stores and events. Visit our website to get in touch about your order needs.

# KAAPITURITTI KAAPITTIAMI!

## QAYAQ KAAPIA

Life is all about balance. This is never more true than when you're in a qayaq.

For those who appreciate an even keel, we've created our signature qayaq roast. Medium bodied with a pleasantly strong flavour, this coffee brings out the unique character of our premium beans for a smooth sailing taste.

## INUKHUK KAAPIA

Inuit have no tradition of maps. Instead, we build inukhuit to tell us where to go and how to get there. Good fishing spots, travel routes, caribou drives...they all have their stones.

When choosing a title for this rich, dark roast, we wanted to give it a name as encouraging as its taste. We wanted something that keeps us on our feet, urges us forward and drives us to where we need to be. If you like a coffee that always puts you in your place, then the inukhuk roast is for you.

## IGLU KAAPIA

We've all had those mornings when it is just too hard to get up. Now imagine that in winter at -50 degrees Celsius, 24 hour darkness, and in a house made of snow.

Our Iglu roast is a tribute to the fortitude of Inuit. We have combined Arabica and Robusta beans to create a bold and energizing espresso that will help you rise above any of life's challenges. Whether you're looking for a much-needed kick to start your day, or a pick-me-up to get you through it, this is the coffee to keep you going.

Kaapittiaq creates an Indigenous to Indigenous business network that connects communities across the globe to support their economic and cultural renewal.

**With every Kaapittiaq purchase, you support the wellbeing and cultural survival of Indigenous communities in Northern Canada and in South America.**
